BRIGHT-O-METER

We are in the real estate and hotel business with properties in the United States and Australia. DCI Sign has recently built an extra large LED Message Center for our 10 year old hotel in the Amana Colonies, Iowa. It has truly been our pleasure to do business with such caring and fine people like Barb, her husband John, and their professional, efficient, and courteous team at DCI. The product they built for us is in one word "SUPERB". Barbara especially went out of her way to take good care of us. THANK YOU ALL AT DCI SIGN!
